# FASHION SHOW PROGRAM

## COSTUME DESIGN, 1934

### INTRODUCTION

The Pennsylvania Museum School of Industrial Art is a school designed to meet the requirements of students who intend to enter a field of industry to which art is allied. There are opportunities for students who wish to develop their talents in Costume Design when they have been trained professionally.

The Fashion Show is presented by students of Costume Design who are taught to design according to the selection of fabric, and to cut and make these garments according to current trends of fashion.
